SUMMARY

Product Designer with 5+ years of experience designing web and mobile products across B2B SaaS, AI/LLM, education, and complex platform workflows. Experienced in end-to-end product design, UX/UI, interaction design, user research, prototyping, usability testing, and design systems. Strong at simplifying complex workflows and partnering with Product and Engineering to turn ambiguous problems into clear, scalable experiences.

WORK EXPERIENCE

Product Designer- Integrate, Chennai

Jun 2024 - Present

- Owned **Linked Campaign Propagation** end-to-end, mapping backend behavior, uncovering a production design discrepancy, and translating findings into product strategy and interactive prototypes.
- Built a reusable **prototyping system across 10 major product areas**, reducing repetitive setup and enabling faster exploration across the design team.
- Led a **Design + Engineering collaboration model**, introducing two-track routing for simple versus complex platform changes and improving scalable handoffs between Design and Pixel teams.
- Led migration of inbound/outbound integration workflows, applying **API-aligned UX patterns** to improve consistency and efficiency.
- Designed and shipped a **0→1 modular user profile experience**, improving discoverability and reducing support tickets by **25%**.
- Designed and documented foundational platform components with Engineering, ensuring design intent translated into production-ready implementation.

Senior UX/UI Designer- Innerscore, Hyderabad

Mar 2024 - Jun 2024

- Redesigned navigation and **conversational UX** for a native **LLM-based educational assistant**, balancing conversational interactions with traditional product navigation.
- Conducted usability testing with students, achieving a **40% reduction in navigation errors** and improving engagement.
- Mapped user journeys and context-aware states for adaptive learning experiences.

Product Designer– Hurrey Tech, Bengaluru

May 2022 – Jan 2024

- Redesigned multi-role workflows across **Admin, Teacher, and Student** experiences for web and mobile, establishing a scalable design system inspired by Material Design and Tailwind CSS.
- Designed a **0→1 school administration platform** covering the complete admissions lifecycle for administrators and parents.
- Built scalable **design tokens and UI libraries**, improving design consistency and design-to-development handoff.
- Created a high-conversion pitch deck and demo app contributing to **25% more funding and 10% user growth**.

Post-production editor– Blackdoor Studio, Chennai

Oct 2020 – Mar 2022

- Produced optimized video content for social and digital platforms, contributing to a **10% increase in CTR**.
